- d) Bidder to submit **copy of GST certificate along with latest quarterly return** so that it can be verified that there is no overdue tax to be deposited to the Government.
- e) Bidder has submitted documents/literature/data to demonstrate that the offered product meets the Techno-commercial Requirement as per Specification & Standards mentioned in **Schedule of supply for bidders and Form-8 Techno-commercial specifications compliance/ deviation Techno-commercial**. The decision of PE about Technical Suitability of bid would be final.
- f) In case sample is also submitted then Sample will also be examined whether it conforms to the requirements specified in Specification & Standards in **Schedule of Supply for Bidders**, prior to opening of Financial Bids.
- g) If the Bidder is not a manufacturer, then Bidder should submit authorization from the Manufacturer/ authorized dealers/ authorized service centers/ bona-fide dealers or service providers. In case there are the more than one item than authorization will have to be submitted for each item.

or

If the Bidder is a manufacturer, then the bidder should submit the following:

- i) Copy of valid manufacturing license issued by a competent authority
- ii) Product permission with reference to the subject matter of procurement
- h) Copy of MSME (*Udyog Aadhaar, Udyam registration, Entrepreneurs Memorandum-III Udyam Registration Certificate or any other certificate, etc.*), if any
- i) Any other certificate(s) required to be submitted. (**For example-** *International Organisation for Standards, Environment Management, Bureau of Indian Standard, Central Drugs Standard Control Organisation, Indian Pharmacopoeia etc.*), if any
- j) Certificate that bidders with beneficial ownership from countries sharing land border with India, for participation in any public procurement in the State, shall only be allowed after prior registration with the competent authority as per Rule 13 of RTPP Rules and Government of Rajasthan Notification No. F.2(1)FD/G&T-SPFC/2017 dated 01.01.2021, 15.01.2021 and 30.03.2021. Declaration by the Bidder (TECH-9) and if applicable registration certificate issued by the Industries Department, Government of Rajasthan or issued by the Competent Authority of the Government of India. (Verification from documents to be submitted by the bidder).

3.2.3 Additional Techno-commercial Evaluation, if required

Besides, **Preliminary Examination** mentioned in 3.2.1 and **Techno – commercial examination mentioned** in 3.2.2 following additional documents/declaration needs to be submitted:

- (a) Financial Capability will be determined by Average Annual Turnover. Bidder will have to submit documents that it has generated an average annual turnover of at least of the value of INR 70,00,000/-, during the last. **3 years ending on 2022** to qualify for an item. The turnover is to be supported by **Form Tech 7 Size of Operation** of accounts (*balance sheet or CA certificate*) for the past financial years duly certified by the auditor of the Company. For multiple items the criteria will be cumulative.
- (b) Techno-commercial capability will be determined by way of having executed order as main supplier within the preceding 3 Years and at least 1 contract each valued at least 80% or at least 2 contract each valued at least 60% or at least 3 contract each valued at least 40% of the value of procurement with nature and complexity like the scope of requirements described in **Schedule of Supply for Bidders and Form TECH 6 Contractual Experience**

- (c) Procuring Entity reserves the right to inspect the manufacturing premises for available capacity, infrastructure, machinery, manpower etc.

3.3 Price Comparison

The Procuring Entity will compare the price bids, to select the lowest evaluated bid.

For bids invited item-wise the evaluation would be done for each item separately. There is no option with bidder to submit quote for partial quantity of any item/items. If the Bidder does not want to Bid for a particular item than it should be left blank or filled zero. Procuring Entity will award the contract for each item separately to the lowest priced responsive bidder for that item. Discounts of any kind shall not be considered for proposal evaluation.

(iv) NAS Storage (50 TB)

Sr. No.	Feature	Description
1	Storage Quality Certification	The Storage OEM should be established in the Gartner Leader Quadrant
2	Storage Controller	The Storage system should a unified system supporting all Block and File protocols natively in active-active configuration. All controllers should be actively participate in capacity & performance of storage. Storage operating system must not be a general purpose OS.

RAJASTHAN HIGH COURT, JODHPUR

Phone No. 0291-2888500-504 Fax No. 0291-2888080, Pin Code – 342013, Email – hc-ri@nic.in

Sr. No.	Feature	Description
3	Cache required	The unified system should have minimum 64 GB usable DRAM cache memory after considering overheads for protecting writes in the cache memory, entire cache should be available across dual controllers with an ability to protect data on cache if there is a controller failure or power outage. Cache should be protected for Writes either through a battery backup or by destaging to flash/disk. In addition to DRAM cache each controller should be offered with 2 TB NVME/flash cache across controller for performance boost . If any bidder does not support flash cache then they should offer minimum 1024 GB DRAM cache across dual controllers.Solution should be able to scale the DRAM cache and NVME / flash cache to 256 GB & 4 TB in scale up or scale out manner.
4	Drive Support	The unified system must support intermixing of dual ported 12Gbps SSD , SAS and SATA drives to meet the capacity and performance requirements of the applications. The system must support scaling of disks to 1400 in scale up or scale out manner for capacity enhancement
5	Protocols	The storage should a true unified storage configured with iSCSI, FC, FCOE, NFS(NFSv3,NFSv4, NFSv4.1-RFC 5661) SMB(,SMB2 & SMB3) natively for use with different applications. All license must be supplied for the maximum capacity offered by the storage system. NO separate NAS headers to be offered. Storage should offer S3 protocols either natively or using any additional hardware or software from day one with required licenses with no single point of failure.
7	High Availability	The unified storage system must be configured to continuously serve data in event of any controller / node failure for all asked protocols. In addition to this, it must also be possible to withstand failure of any 3 disks per RAID-Group. In case offered storage does not offer 3 drive failure per RAID group then they should offer additional 20% drives as hot spare.
9	Storage Capacity	Storage must supplied with 50 TB usable capacity , out of this minimum 7 TB should be on AAS and rest on NLSAS 7.2K drives. All drives should be 12Gbps dual ported. Storage should support using the offered SSD drives as cache for the active data for the volumes provisioned or tiering of data. License for same should be offered from day one.
10	Front-End and Backend connectivity	The proposed unified storage system should have minimum 8 x 10GbE baseT ports + 4 x 16 Gb FC ports for host connectivity across controller. Storage should be offered with minimum 4 x 12Gbps SAS ports across controllers for backend connectivity. Storage solution should also support scaling to double the number of ports (front end & backend) in scale up or scale out manner.
11	Rack Mountable	The unified storage should be supplied with rack mount kit. All the necessary patch cords (Ethernet and Fiber) shall be provided.
12	Storage Scalability and Upgradability	1. The unified proposed system should be field upgradeable to a higher model through data-in-place upgrades. 2. Unified Storage system should allow re-usage of Disk Shelves with higher models of the same product line.
13	Storage functionality	The unified storage shall have the ability to expand LUNS/Volumes on the storage online and instantly.
		The unified storage shall have the ability to create logical volumes without physical capacity being available or in other words system should allow over-provisioning of the capacity. The license required for the same shall be supplied for the maximum supported capacity of the offered storage model.
		The offered storage should support DR to cloud natively or with add on software for total capacity offered with minimum 3 different CSP/hyperscalers listed in MeITY. If bidder does not support DR to cloud natively then they should offer require software and hardware for entire capacity of storage for both file & block data. The license and required software and hardware should be offered from day one.
		Replication solution must be optimized and secure, entire replication traffic must be encrypted and entire data (Block and File) must be replicated without rehydrating the data before sending on WAN link. this capability should be supported natively in the storage, if it requires addon HW and SW then same must be offered day 1.

Sr. No.	Feature	Description
13	Storage functionality	The unified storage should be configured with Quality of Service feature for IOPs/Throughput for both Block and File.
		The unified storage shall support logical partitioning of controllers in future such that each partition appears as a separate Virtual storage in itself for both block and file. If any addon Software is needed then same should be offered day one.
		The storage array should support minimum 6000 LUNs
		The required number hard disks for parity & spares, should be provided exclusively of the usable capacity mentioned.
		Storage system should deliver 99.9999% availability, this should be documented in public document like datasheet. Storage system should support data in place upgradation to higher storage controllers in same storage family utilizing the licenses already offered.
		Unified System should have redundant hot swappable components like controllers, disks, power supplies, fans etc.Storage system should be able to use the same licenses, disk enclosures and disk with data in place while upgrading higher storage controllers in same storage family.
14	Point-in-times Images	The unified storage should have the requisite licenses to create point-in-time snapshots. The storage should support minimum 6000 snapshots per array. The license proposed should be for the complete supported capacity of the unified system for both block and file.License for snap restore should be offered.
		The unified system should support instant creation of clones of active data, with near zero performance impact for both block and file.
15	Encyption for Data At Rest	The proposed storage array must be configured with data at rest encryption offering industry standard certification/compliance. The storage array may implement data at rest encryption using self encrypting drives or controller based functionality.
16	Management	Single management, easy to use GUI based and web enabled administration interface for configuration, storage management and performance analysis tools for both block and file. OEM should offer tool to monitor , optimize, secure the system which should be able to manage the resources, help to find and fix the problem, detect the renasomeware threat before it affects the system. This tool/software should be able to manage, optimize and protect the system both on premise and cloud and theird party systems as well.
17	Remote Support & Diagnostics	Storage management should support "Call home" facility with web based self service portal providing an integrated, efficient monitoring and reporting capability and supporting data collection. Management software should provide features like: 1. Automated call home feature 2. Nonintrusive alerting 3. Performance and Capacity reports 4. Ongoing health check analysis
	OS support	Support for industry-leading Operating System platforms including. Any Multipathing software required for the solution must be supplied for unlimited host connectivity
18	Storage Efficiency	Proposed unified storage should support Inline as well As Post Process block level data de-duplication,compression for all kinds of data on both block and file for the offered capacity.
20	Upgrade Protection	OEM must provide a written confirmation to provide drive and controller upgrades for the offered configuration for a period of 10 years from bid date.
21	Warranty & SLA	The Hardware and software quoted should have 5 years support along with updates.
Note: All specifications are minimum and higher specifications are always acceptable

Form TECH-5 Declarations by the Bidder

(To be executed on a Rs. 100/- non-judicial stamp paper and duly notarized)

In relation to our Bid submitted to [enter designation and address of the procuring entity] for procurement of [insert name of the Goods] in response

to their Notice Inviting Bids No..... Dated we hereby declare under Section 7 and 11 of the Rajasthan Transparency in Public Procurement Act, 2012, that:

1. I/We are eligible and possess the necessary professional, technical, financial, and managerial resources and competence required by the Bidding Document issued by the Procuring Entity.
2. I/We have fulfilled our obligation to pay such of the taxes payable to the Central Government or the State Government or any local authority, as specified in the Bidding Document.
3. I/We are not insolvent, in receivership, bankrupt or being wound up, not have our affairs administered by a court or a judicial officer, not have our business activities suspended and are not the subject of legal proceedings for any of the foregoing reasons.
4. I/We and our directors and officers have not been convicted of any criminal offence related to their professional conduct or the making of false statements or misrepresentations as to their qualifications to enter into a procurement contract within a period of three years preceding the commencement of the procurement process, or not have been otherwise disqualified pursuant to debarment proceedings.
5. I/We have not been/have been debarred under Section 46 of RPPP Act. In case the Bidder is debarred by any other Procuring Entity of State/Central Government or in any country in last three years then following details to be provided for each Procuring Entity:
 - (i) Name of Entity State/Centre or Country:
 - (ii) Period of debarment [start and end date]:
 - (iii) Reason for the debarment:
6. I/We do not have a conflict of interest as specified in the Rajasthan Transparency in Public Procurement Act, the Rajasthan Transparency in Public Procurement Rules and this Bidding Document, which materially affects fair competition. A Conflict of Interest is considered to be a situation in which a party has interests that could improperly influence that party's performance of official duties or responsibilities, contractual obligations, or compliance with applicable laws and regulations.
 - i. A Bidder may be considered to be in Conflict of Interest with one or more parties in a bidding process if, including but not limited to:
 - a. have controlling partners/ shareholders in common; or
 - b. receive or have received any direct or indirect subsidy from any of them; or
 - c. have the same legal representative for purposes of the Bid; or
 - d. have a relationship with each other, directly or through common third parties, that puts them in a position to have access to information about or influence on the Bid of another Bidder, or influence the decisions of the Procuring Entity regarding the bidding process; or
 - e. the Bidder participates in more than one Bid in a bidding process. Participation by a Bidder in more than one Bid will result in the disqualification of all Bids in which the Bidder is involved. However, this does not limit the inclusion of the same subcontractor, not otherwise participating as a Bidder, in more than one Bid; or
 - f. the Bidder or any of its affiliates participated as a consultant in the preparation of the design or technical specifications of the Goods, Works or Services that are the subject of the Bid; or

7. I/We have complied and shall continue to comply with the Code of Integrity as specified in the Rajasthan Transparency in Public Procurement Act, the Rajasthan Transparency in Public Procurement Rules, and this Bidding Document, till completion of all our obligations under the Contract. This means that any person participating in a procurement process shall –
- not offer any bribe, reward or gift or any material benefit either directly or indirectly in exchange for an unfair advantage in procurement process or to otherwise influence the procurement process;
 - not misrepresent or omit that misleads or attempts to mislead so as to obtain a financial or other benefit or avoid an obligation;
 - not indulge in any collusion, Bid rigging or anti-competitive behavior to impair the transparency, fairness and progress of the procurement process;
 - not misuse any information shared between the procuring Entity and the Bidders with an intent to gain unfair advantage in the procurement process;
 - not indulge in any coercion including impairing or harming or threatening to do the same, directly or indirectly, to any party or to its property to influence the procurement process;
 - not obstruct any investigation or audit of a procurement process;
 - disclose conflict of interest, if any; and
 - disclose any previous transgressions with any Entity in India or any other country during the last three years or any debarment by any other procuring entity.
